WHAT CAN I GRADUATE WITH?

KPU OFFERS 120+ UNIQUE PROGRAMS AT THE PREPARATORY, UNDERGRADUATE, AND GRADUATE LEVELS. Depending on your program of study, you can graduate with a certificate, diploma, associate degree, bachelor's degree, post-baccalaureate diploma, or graduate diploma. KPU even offers dual credential opportunities that lead to master's degrees.

CERTIFICATE	DIPLOMA	ASSOCIATE DEGREE	BACHELOR'S DEGREE	POST-BACCALAUREATE DIPLOMA	GRADUATE DIPLOMA
 12 Months	 2 Years	 2 Years	 4 Years	 1.5-2 Years	 1-2 Years
 30 Credits	 60 Credits	 60 Credits	 120 Credits	 30-48 Credits	 36 Credits

Programs at KPU are categorized as either open intake or limited intake »

Open intake programs are open for admission at every intake cycle (Fall, Spring, and Summer) until all available seats for that intake are filled or the application deadline has passed. If you apply by the application deadline, meet the admission requirements, and an available seat can be confirmed, you will be offered admission.

Limited intake programs admit only a select number of students per intake cycle. Not all limited intake programs are offered at all intakes, and application deadlines are much earlier than for open intake programs. In general, they have supplementary admission requirements (such as portfolio reviews, interviews, GPA/minimum grade requirements for specific subjects) in addition to the general KPU admission requirements. These programs are often quite competitive, so you are not guaranteed admission to the program even if you meet all admission requirements and apply by the application deadline.

THE KPU PATHWAY

» ENGLISH UPGRADING » MULTIPLE ENTRY POINTS

» SEAMLESS TRANSITIONS TO UNDERGRADUATE STUDIES

→ kpu.ca/pathway

The KPU Pathway is a preparatory English upgrading program that allows you to improve your English while gradually transitioning to undergraduate studies. Once you complete the pathway, you will automatically be admitted to your undergraduate program!

Who is eligible for the pathway and how do I apply?

Any student who wishes to enter an open intake undergraduate program is eligible to be admitted through the pathway. Luckily, there's no separate pathway application, so you only have to apply to KPU. We'll automatically consider you for admission to your program through the pathway if you don't meet the English requirement. Simple!

How does the Pathway work?

The pathway has four levels, each with a set of required courses that are designed to improve your English proficiency. When you apply to KPU, we'll assess your English to see which level is the best place for you to start. Wherever you start you'll continue moving up through the levels until you complete pathway level 4. By that time, you'll be ready to fully transition into your undergraduate program.

Can I take non-pathway courses while in pathway?

Yes! Students in pathway levels 2-4 will be able to take approved undergraduate courses that count towards their credential.
